Subject: draft material related to R10 whatsapp upstream issue

Joel,

I understand from Dan Opalski that you will be participating in a Congressional hearing today at 10am EST. Dan asked me to share with you some of our draft materials that we have been developing related to the whatsapp upstream issue in case this comes up as

Washington State representative McMorris-Rogers is on the Committee. Two documents are attached:

- [redacted] draft talking points (being developed for Gina M's upcoming budget hearings)
- [redacted] two pager on R10/Puget Sound funding for agriculture collaboration

Caveat - these materials are draft but I have tried to clean them up so they are accurate as of today and hopefully useful to you if needed.

I am at the Salish Sea Ecosystem Conference with Dennis in Vancouver BC but please call my cell - 206-419-0804 – if you have any questions.

Thank you,

Peter
